

The Memorial Hill

5-3-00

The restoration and beautification of the Memorial Hill is in full swing. Kent Berg, of the Wasatch County Maintenance reports that the flag pole will be finished by May 5th. Kent, also, took charge of building the 2 new monuments to support the new arch gate. Gene Probst has offered to do the Masonry work on these monuments. He did the monument on the top of the Hill. Terry Edwards, of Midway, is building the Arch for the entry. The road up the Hill will be widened as much as possible for passing room. The pipe donated by Questar Gas will then be installed around the outer perimeter of this road going up the Hill. It will be done by Dennis Tolman and his National Guard Group. Dr. Raymond Green is completing the final draft of the Veterans names for the plaques. The extreme cost of making the new plaques has us hunting for a more economical way to produce

them. Any suggestions will be much appreciated. We are also looking for a donation of some water shares on the new outside water system to water the Hill. A special concert, "A Patriotic Dream," will be presented Saturday, May 6, 2000 by the Wasatch County Choralettes under the direction of Sandy Turner. A long list of super talented people have worked hard for months to get this presentation ready. The Flag Ceremony to set the stage for the concert will be presented by the Utah Fife and Drum Bugle Corp, in War attire under the direction of Pat Mahoney. Don't Miss It! Most of the proceeds from these productions will go to the beautification of Memorial Hill. Tickets are being sold by the Boy Scouts and also at the door that night. Any donations would be greatly appreciated. You may contact Al Kohler, Memorial Hill Committee at 654-2580. *W*

Memorial Hill Restoration

3 May 2000

BY RESTORATION COMMITTEE

The restoration and beautification of the Memorial Hill is in full swing.

Kent Berg, of the Wasatch County Maintenance Department, reports that the flag pole will be finished by May 5. Berg also took charge of the building of the two new monuments to support the new arch gate.

Gene Probst has offered to complete the masonry work on these monuments. He did the monument on the top of the hill. Terry Edwards, of Midway, is building the arch for the entry. The road up the hill will be widened as much as possible for room for passing. The pipe donated by Questar Gas will then be installed around the outer perimeter of the road going up the hill. It will be done by Dennis Tolman and his National Guard Unit.

Dr. Raymond Green is completing the final draft of the veteran's names for the plaques. The extreme cost of making the

new plaques has us hunting for a more economical way to produce them. Any suggestions will be much appreciated.

We are also looking for a donation of some water shares on the new outside water system to water the hill. A special concert called "A Patriotic Dream" will be presented Saturday, May 6, by the Wasatch County Choralettes, under the direction of Sandy Turner. A long list of super-talented people have worked hard for months to get this presentation ready.

The flag ceremony to set the stage for the concert will be presented by the Utah Fife and Drum Bugle Corp., in Civil War attire, under the direction of Pat Mahoney.

Don't miss it. Most of the proceeds from this production will go toward the beautification and restoration of Memorial Hill.

Tickets are being sold by the area boy scouts and will also be available at the door. Any donations would be greatly appreciated. Contact Al Kohler, Memorial Hill Committee, 654-2580.

Memorial Hill Gate *5-24-00*

Editor: Several times I have drawn a sketch of the arch gate for Memorial Hill. Nothing seemed like a workable design. Along came Terry Edwards. He didn't need a sketch or anything else except the go ahead to make the arch.

Kent Berg took care of the basic construction of the side pillars with pipes that stood 14 feet tall. Clay Coleman furnished the stencils for Terry to hand-cut the steel plate letters that spell out "Memorial Hill" on top of the arch. The pipe, 12 inches in diameter and 30 feet long was all assembled with the letters welded on, ready to go.

On Saturday morning, May 20, it was time for the arch to be assembled. How to raise that 2,500-pound piece into position was solved by Ray Norton, owner of the Olde Swiss Square, on Midway Main Street. Ray Norton came to the Memorial Hill to see what was needed. It wasn't much of a challenge for that crane to lift the 2,500-pound pipe into place.

Next comes the electrical work and lights to install. The project will be completed by Gene Probst doing the rock work. The gates to secure the hill come last. The Scouts are ready to start their projects on the upper flower gardens on the top of the hill.

If you want to help complete this project contact me at 654-2580 or send your donation to Zion's Bank, 81 East Center Street, Heber City, Utah 84032 payable to Memorial Restoration account. We are also looking for water shares to keep the hill looking good.

Memorial Hill Gets Revamped

Suzanne Bates, *Courier* Staff *5-31-00*

The arch to Memorial Hill is now up, greeting visitors as they enter the roadway to go up the hill. A new flagpole has also been added to the hill, complete with new American and Utah flags.

Alvah Kohler has been working long and hard to bring these improvements to Midway's memorial to war veterans. He said that he has a "secret mine," that funds all of these improvements - but of course what he means is that there have been many private donations made that have made these things possible.

According to Kohler, there are still other improvements waiting to get finished. Gates will be added to the arch, and floodlights will be set up that will point at the arch.

Many people have been involved in the restoration projects. Wasatch County resident Terry Edwards has spent over 60 hours working on the hill. Public Works Director Kent Berg has also been instrumental in getting the flag pole put up, and clearing trees out of the way to widen the road leading up to the top of the hill.

Anyone who would like to donate to the project can make a donation at Zion's Bank to the Memorial Hill Restoration. *z*
